The community is invited to a Student Energy and Utility Showcase on Saturday, June 7, at the Clackamas Community College's Wilsonville campus.

Various aspects of the utility industry -- from operations to sustainability – will be featured from 8 to 11:30 a.m. at 29353 Town Center Loop E.

Renewable Energy Technology program students will present their capstone projects and those in the Energy and Resource Management program will discuss hot topics in fossil fuels that face the industry.

Students in the Utility Workforce Readiness and Utility Trades Preparation: Lineworker certificate programs will demonstrate hands-on skills and the use of heavy equipment.
